

Calling All Community Choice Energy Defenders!

Please join us on Thursday, February 8, 2018 at 8:30am on the steps of the California Public Utilities Commission (CPUC) building for a Press Conference and Rally in response to the CPUC's recent assault on Community Choice Energy, Resolution E-4907, which is an overstep of CPUC authority and would seriously hamper new Community Choice Agency (CCA) formation.

What: News Conference/Rally in response to CPUC draft resolution 4907, a threat to Community Choice Energy

Where: CPUC Headquarters, 505 Van Ness Ave, San Francisco

When: 8:30 am, Thursday, February 8, 2018

Speakers:

- Woody Hastings, Center for Climate Protection (Call-to Order)
- Efren Carrillo, former Sonoma County Supervisor, Founding Boardmember of Sonoma Clean Power
- CleanPowerSF representative (Welcoming Remarks)
- Other speakers to be announced: CCA representatives, community based organizations, elected officials

If passed, the Resolution will create a significant impediment to the formation of future CCAs. We are very concerned about how this would negatively impact future CCAs, especially those emerging to serve disadvantaged communities in the Central Valley, Los Angeles County, and elsewhere.

For more information and to learn what you can do visit the Center for Climate Protections' Community Choice-dedicated [Clean Power Exchange](#) website and [ACTION ALERT](#).
